Education

Netaji Subhas University of Technology	2022-2026
<i>B.Tech in Electrical Engineering</i>	CGPA: 8.38
Father Agnel School, New Delhi	2022
<i>CBSE (Class XII)</i>	96.2%

Work Experience

Mahindra Logistics SDE Intern	May 2025-Jul 2025
○ Built and deployed a full-stack Employee Transport Management System with routing and rostering. ○ Developed a FastAPI microservice using Google OR-Tools for constraint-based route optimization. ○ Delivered secure, role-based portals with RSA JWT auth for inter-service communication. ○ Tech Stack: Typescript, Node.js, React.js, MySQL Drizzle orm, Redis, Python, Docker	
House Of EdTech FullStack Developer Intern (Remote)	Apr 2025-May 2025
○ Contributed to migrating the payment system from polling to a webhook-based architecture, reducing unnecessary API calls and improving real-time order processing. ○ Upgraded front-end UI to Tailwind CSS v4, improving design consistency across 20+ pages. ○ Tech Stack: Next.js, Typescript, Node.js, Hono, Cloudflare Workers, Drizzle orm, Postgresql	

Projects

Career Shepherds Demo Github	Jan 2025
○ Built a career guidance platform offering resume analysis, job fit scoring, AI chat mentorship, and course recommendations. ○ Developed React.js frontend with custom onboarding and React Query for API management ○ Built Node.js backend with JWT auth and FastAPI-powered AI features; used MongoDB for session persistence. ○ Deployed using: Vercel(Frontend), Render(Node.js backend) and Amazon EC2(FastAPI backend) ○ Tech Stack: <i>React.js, TailwindCSS, FramerMotion, Node.js, Express.js, MongoDB, FastAPI,shadcn/ui</i>	
Scalable WebSocket Chat App Demo Github	June 2025
○ Built a real-time chat system using the native WebSocket API in Node.js, with Redis Pub/Sub enabling horizontal scaling across multiple server instances. ○ Designed room-based messaging with local user state and centralized room membership synced via Redis. ○ Developed a minimal React.js frontend to connect, join rooms, and exchange messages in real time. ○ Tech Stack: <i>TypeScript, Node.js, Redis, React.js, Vite</i>	
BrainShare Web Link Github	March 2025
○ Built a knowledge management platform with rich text editing (TipTap), image uploads, tagging, and document sharing via unique links. ○ Tech Stack: <i>Next.js 15, TypeScript, TailwindCSS, MongoDB, shadcn/ui, Clerk</i>	

Skills

- **Languages:** C, C++, Python, TypeScript, JavaScript
- **Frameworks & Technologies:** Next.js, React.js, Node.js, Express.js, Hono, Docker, FastAPI, Tailwind CSS, ioredis, shadcn/ui, FramerMotion, TanStack Query, MySQL, MongoDB, Drizzle ORM
- **Version Control:** Git, GitHub

Academic achievements and awards

- **National Winner – Mahindra Logistics Techathon 2.0.**
- **Finalist- National Entrepreneurship Competition'24 IIT Bombay.**
